#### Applied Video Solutions, Inc.

**Address:** San Francisco, CA 94110  
2601 Mission Street, Suite 802  
**Phone:** (415) 824-1717

Founded in 2002, our expertise is in the integration of video and operational technologies where one can support the other to drive key information which allows managers and business owners to manage risk and drive business performance like never before.

We provide a fully managed service from the design, build & installation of intelligent video management systems, retro design and installation where existing systems require modernization and the integration with parallel systems such as Point of Sale to ensure optimum integration and the provision of management data that can guide decision making and drive business improvement.

Through Intelligent Analytics we ensure the data which we provide targets such potentially significant business improvement areas such as; customer flow (directional), customer footfall (in relation to sales conversions), dwell times, abnormal occurrences, retail 'hot spots – the appliance of this leading edge science is practically unlimited.
